EXPERIENCE

Junior Front-End Developer   12/2023 - 02/2024

Codexio Ltd   Sofia

- I have participated in many projects where I have dealt with implementing the base structure and styling of small reusable components and large composite pages
- I have been involved in the initial implementation and setup of stores for different modules, extracting common functionalities into reusable components and services.
- I have created and implemented fully customizable templates for different pages from scratch.
- Additionally, I have investigated and debugged issues and refactored legacy code.

Intern   06/2022 - 09/2022

TechnoLogica EAD   Sofia

- I took place at Internship Program 2022 for Software Developers in TechnoLogica EAD in which I was trained in the following: Database design, SQL (Oracle), Regular Expressions, Web Services, XML, JSON, Spring, User Experience, Angular, Oracle ODI & DI, Configuration Management

Erasmus   06/2022 - 06/2022

IT - Networking   Dresden, Germany

- I took place at WBS TRAINING AG in Dresden, Germany. The course covered topics related to IT networking, such as network architecture, protocols, security, troubleshooting, and possibly hands-on practice with networking equipment and software.

EDUCATION

Computer Software and Engineering   2020 - 2024

Technical university of Sofia

High School Diploma in Computer equipment and technologies   06/2020

Vocational High School "Ivan Hadzhienov"

SUMMARY

I am open-minded, hard-working and goal-orientated and know that my ability to learn fast will truly make it easy for me.

SKILLS

Angular · JavaScript · TypeScript · NgRx · RxJs · Angular Material · Bootstrap · HTML · CSS · SCSS · TAILWIND CSS · Figma · Java · Spring · MySQL · PostgreSQL · Oracle

STRENGTHS

◈ **Fast Learner**
Quickly grasps new concepts and technologies, enabling rapid onboarding and adaptation

◈ **Adaptable**
Easily adjusts to new environments, tools, and methodologies, ensuring seamless integration into diverse teams

◈ **Detail-Oriented**
Demonstrates meticulous attention to detail in coding, design, and troubleshooting, ensuring high-quality deliverables

◈ **Problem Solver**
Proficient at identifying and resolving complex technical issues, enhancing overall project efficiency and success
